

HR Connect's Employee Self-Service (ESS) provides employees with direct access to their personnel data. The accuracy of this data can be instantly verified by an employee and updated online. Employees can also better manage their careers and benefits information through a wealth of automated resources and online tools. Below is a brief summary of the major ESS features.

**My Information**

The key portion of ESS is dedicated to providing instant, online access to an employee's personnel data. Through "My Information," an employee can view and update their name, address, education level, emergency contacts, veteran's preference, disability status, etc. Employees can also view their employment, compensation, leave, performance, and benefits related data, as well as being able to view and print SF-50's.
